

EDUCATIONAL RESEARCH CENTRE

Introduction

Introduction could be start from a basic question. As this project requires the question could be, ***“What are the critical needs to be a civilized, sensible, healthy human being?”***

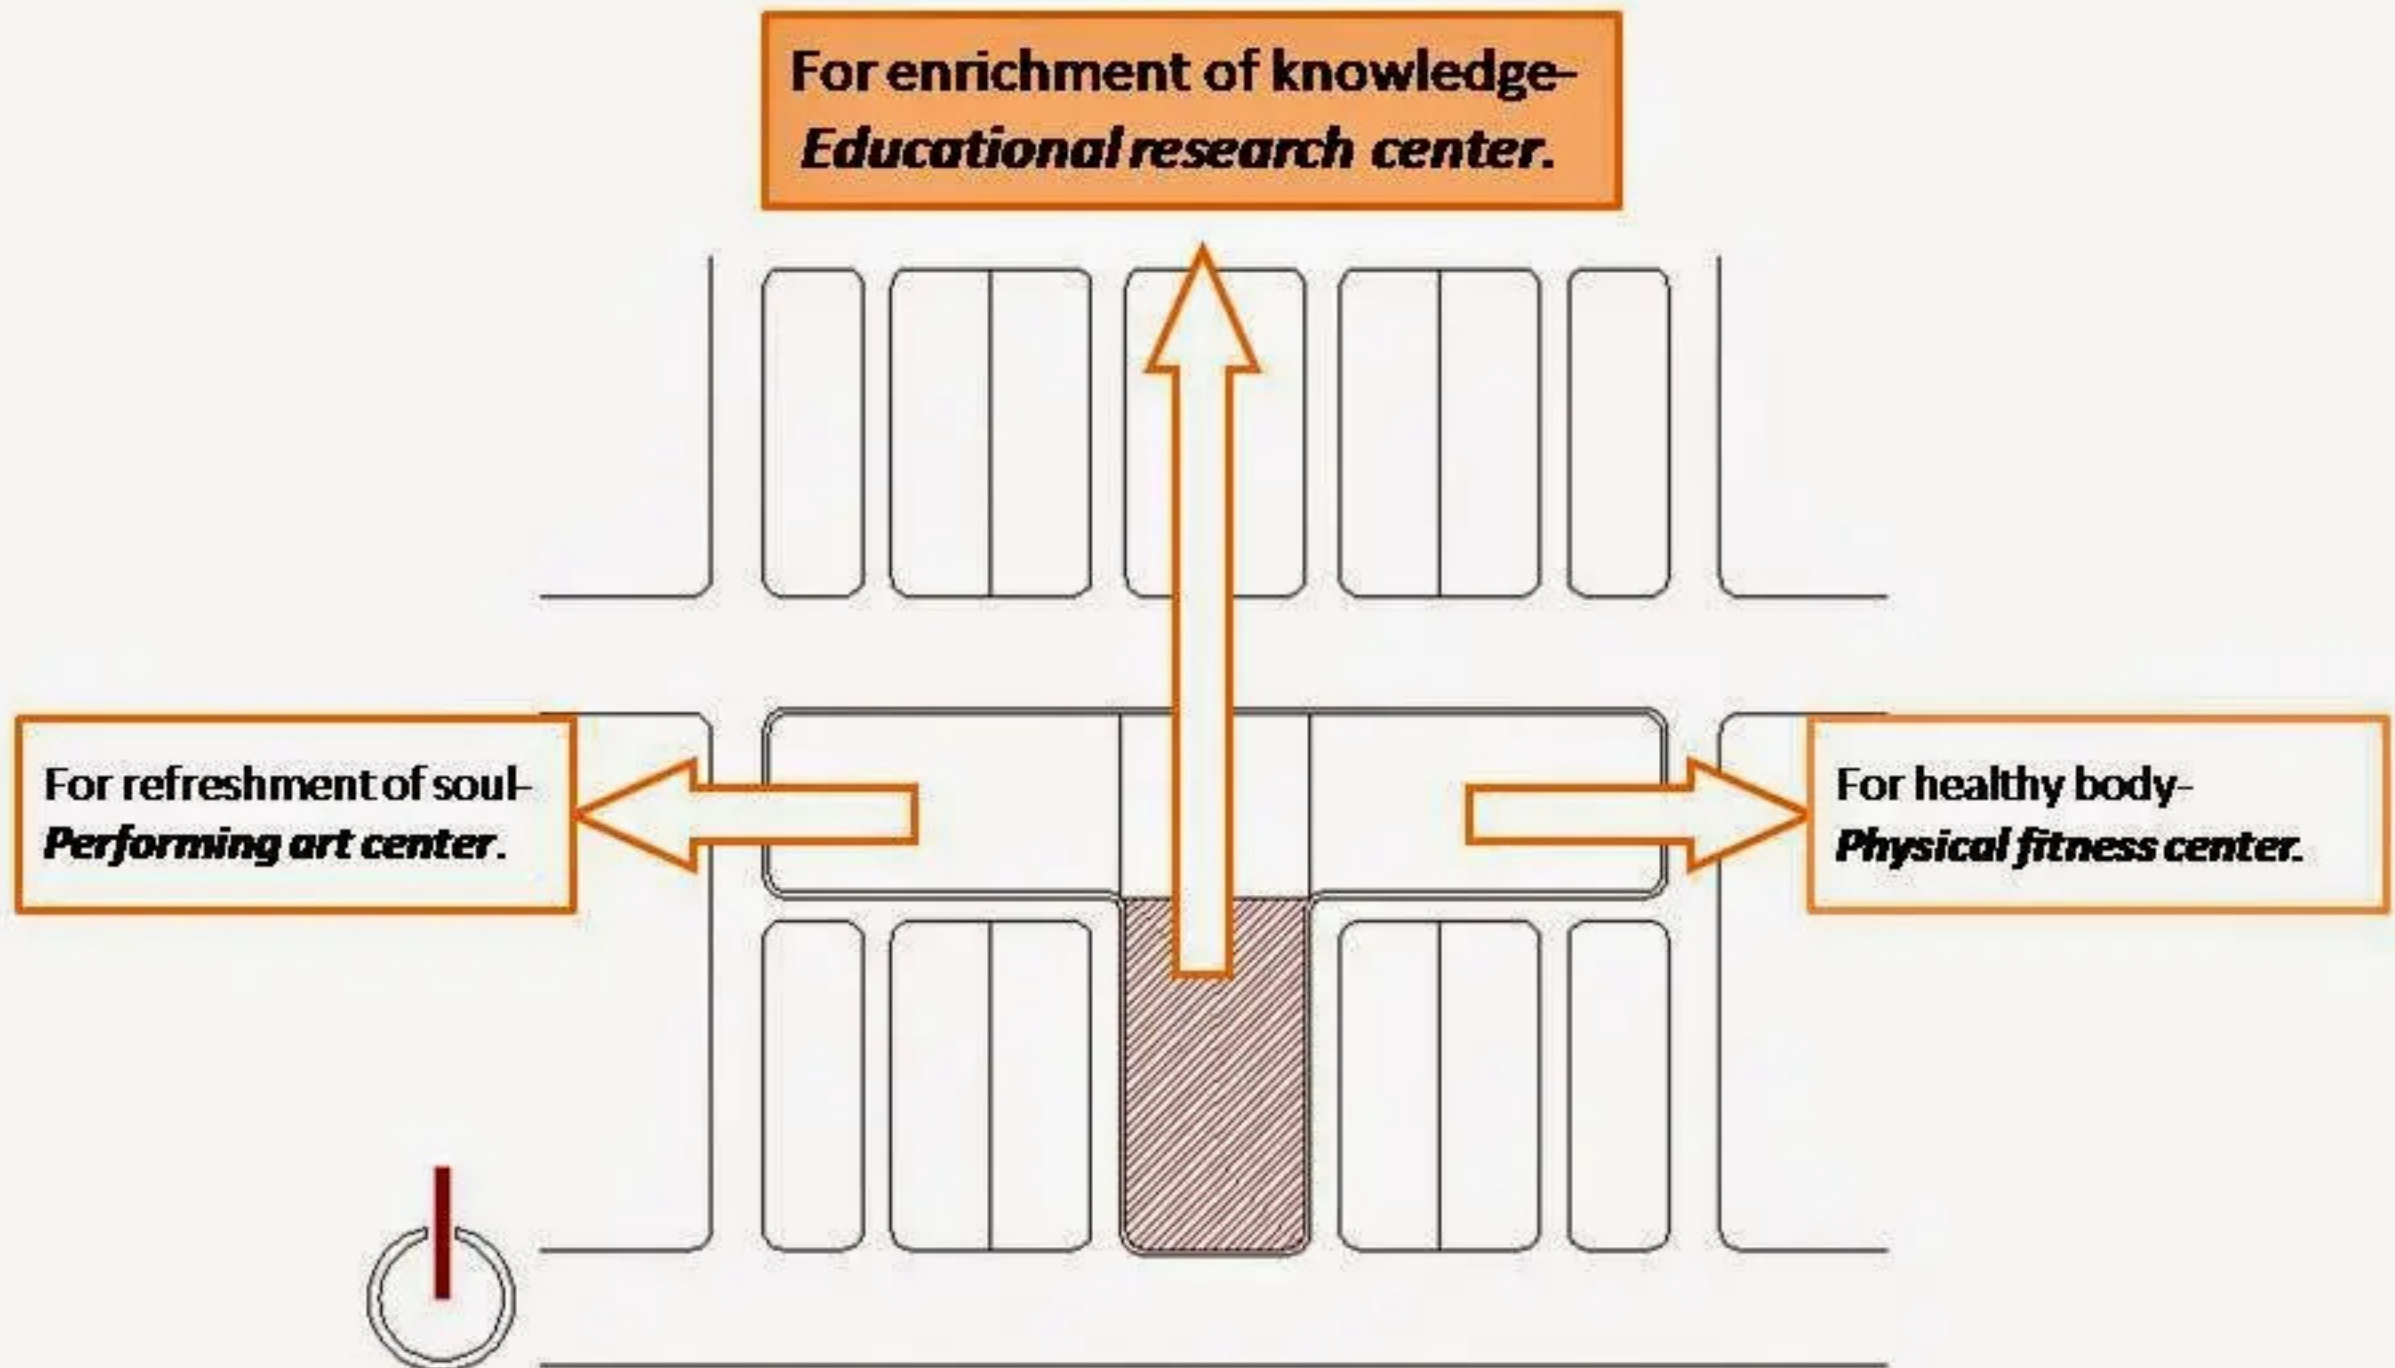

Individuals, created to fulfill social, biological, and political needs ... to fulfill that needs individuals tend to be happier and healthier.

CONCEPT

Introduction

From the basic needs of human being we propose three different groups of program for a specific community of people.

EDUCATIONAL

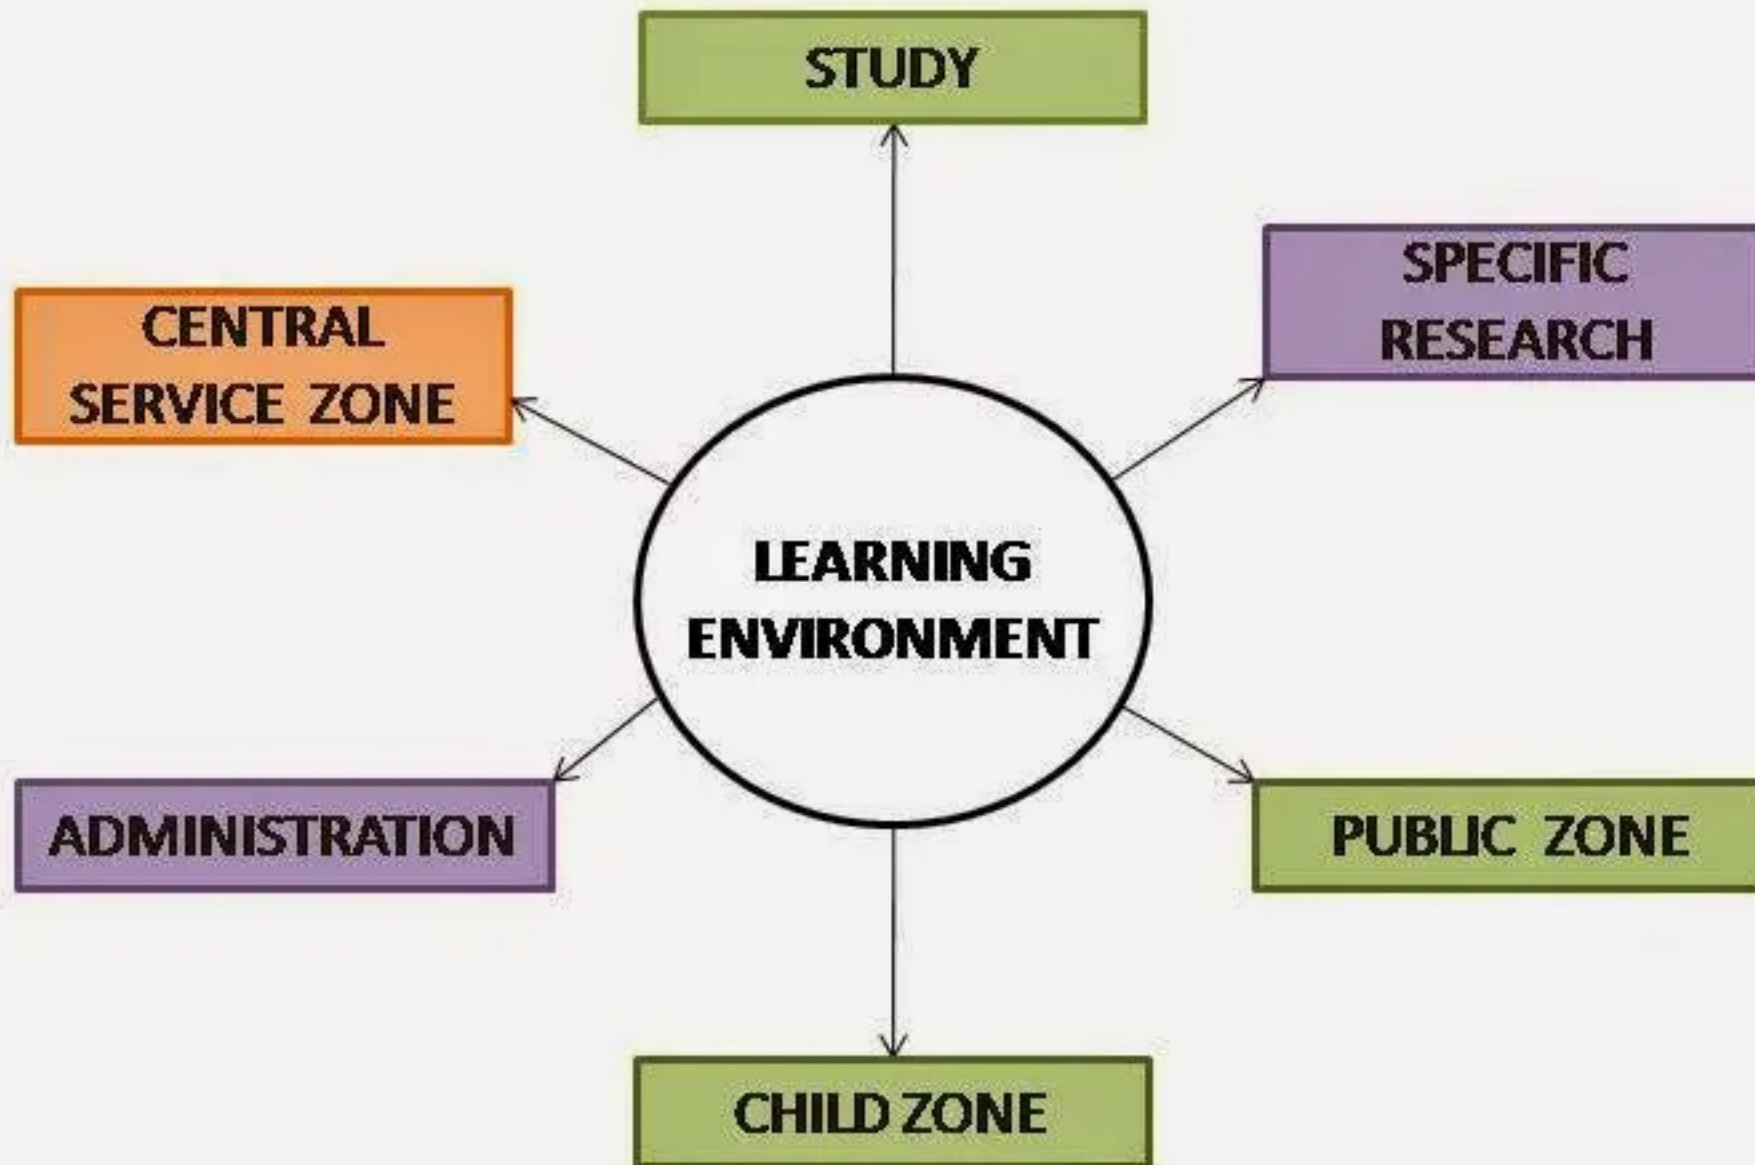

RESEARCH CENTRE

Educational research center focused on describing, understanding, improving, and researching various aspects of human “Life”. A Critical Review of Concepts and Definitions –

**Human social learning—the kind of learning that distinguishes humans ...,
Learning in order to improve and reform instruction and training in schools....,**

The workplace, and informal learning environments.....
